

Project Design Phase-I Solution Architecture

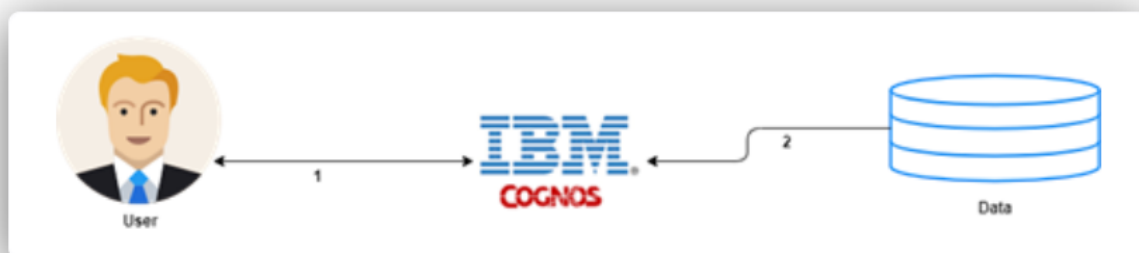

Date	09-OCTOBER-2022
Team ID	PNT2022TMID05132
Project Name	GLOBAL SALES DATA ANALYTICS
Maximum Marks	4 Marks
TEAM MEMBERS	ABISEKH M -(921319106005) ABDUSH SAMAD M-(921319106002) ABIKRISHNA M - (921319106003) ARAVINDAN N - (921319106020)

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
